## WEB FRONT-END DEVELOPER

Dear recruiter,

I came to Australia to seek new experiences and opportunities.  
I arrived on December 28, 2023, and I am ready to start working at any time.  
With about 8 years of experience as a web publisher/front-end developer.  
I can handle basic PHP and create dynamic web front-end screens tailored to the design.  
I have extensive experience in designing responsive websites.

[SKILL]

HTML5, CSS3, JAVASCRIPT, QUERY, PHOTOSHOP, ILLUSTRATION

Although my English communication skills aren't yet fluent, my past work experience assures me that I won't have difficulty in my job. I plan to improve my English through both daily interactions and dedicated study.

When working, I prioritize coding structure, ensuring websites are user-friendly, and collaborative processes that consider ease of maintenance.

While initial communication might be a challenge, I'm committed to making the effort to work together effectively.

I enjoy laughing and getting along with people, and though it may take some time, I'll do my best to integrate well into Australia. Thank you for reading!

Warm regards,  
SUNHWA NAM
